

## NON LETHAL WEAPONS

These weapons are freely available for sale because they do not pose a direct danger to those against whom they are directed. They include remote tasers, which are improved versions of current electric-type defensive weapons, disabling weapons, which immobilize or impede target movement, and impact weapons, which have the effect of a violent blow.

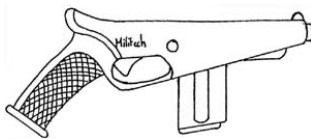

| Arasaka BG-Tranq   |   |
|--|---|
| Type : Sedative gun  | Cartridge : hypodermic dart (1D3 AP + drogue) |
| Accuracy : +2  | Reliability : standard                        |

| Concealability : Non concealable   | Cost : 495 eb                                 |
| Magazine : 10  | Description : Datafortress 2020               |
| Rate of fire : 1   | Length : 85 cm                                |
|  | Country : Japan                               |
| This weapon was originally designed to tranq big game so they could be electronically tagged, however other have found new uses for it. It uses highly compressed gas to fire a large dart filled with any liquid drug you desire to a range of 200 meters. Extra darts are 10eb apiece, but can be reused provided they don't break (any miss results in a break, succesful hits only break about 10% of the time). |   |

| Arasaka Restraint Caster   |                                 |
|--|---------------------------------|
| Type : Entanglement gun  | Cartridge : polymer capsule (*) |
| Accuracy : -1  | Reliability : very reliable     |
| Availability : Rare  | Range : 25 meters               |
| Concealability : Jacket  | Cost : 200 eb                   |
| Magazine : 4   | Description : Protect & Serve   |
