Arasaka Firelance

|	
Type : Railgun Accuracy : +4 Availability : Rare Concealability : Non concealable Magazine : 20 Rate of fire : 1	Cartridge : hardened slug (5D10+10 AP (armure divisée par 4)) Reliability : very reliable Range : 1500 meters Cost : 29500 eb Description : Datafortress 2020 Length : 116 cm Country : Japan

This strange weapon is a state of art railgun. It features a removable ammo/power pack that requires 3 rounds to change.

Arasaka RM-375

Type : Light machinegun Accuracy : +1 Availability : Rare Concealability : Non concealable Magazine : 150 Rate of fire : 2/50	Cartridge : 7.62C (6D6+2) Reliability : very reliable Range : 400 meters Cost : 5025 eb Description : Datafortress 2020 Length : 97 cm Country : Japan

A popular machine gun for use against flesh targets. Even light full conversions and hardsuits can use it. For that matter, fleshies can use it with the aid of a gyrostabilizer mount.
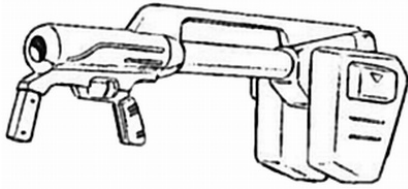

Arasaka Roccer

Type : Light missile launcher Accuracy : 0 Availability : Rare Concealability : Non concealable Magazine : 4 Rate of fire : 1	Cartridge : 40 mm radar guided missile (4D10 AP, 3D6 dans un rayon de 2m) Reliability : very reliable Range : 700 meters Cost : 7450 eb Description : Datafortress 2020 Length : 77 cm Country : Japan

The light weight of the Roccer allows hardsuits and medium full conversions to carry it into battle. The Roccer also becoming popular as a light vehicle mounted weapon.
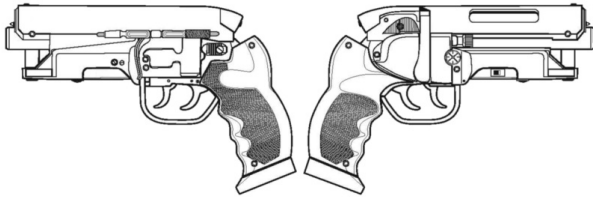

Dai Lung AGL-74

|	
Type : Light grenade launcher Accuracy : -1 Availability : Poor Concealability : Non concealable Magazine : 15 Rate of fire : 2/15	Cartridge : 25 mm grenade (dépend de la grenade utilisée) Reliability : standard Range : 200 meters Cost : 2895 eb Description : Datafortress 2020 Length : 58 cm Country : China

A standard Auto-GL manufactured in China.

Dai Lung G-89

Type : Rocket launcher rifle Accuracy : +1 Availability : Rare Concealability : Non concealable Magazine : 20 Rate of fire : 2/3	Cartridge : 10 mm Ramjet (*) Reliability : standard Range : 100 meters Cost : 4320 eb Description : Datafortress 2020 Length : 86 cm Country : China

* Damages : 5D6 at close range, 6D6+3 at medium range, 7D6 at long range and 7D6+1 at extreme range. Each rocket costs 30 eb. A simple rifle firing micromissiles from a butt loading magazine made in China for the Chinese military.
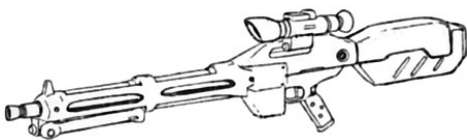

Dai Lung ZRR-17

Type : Rocket launcher Accuracy : -1 Availability : Rare Concealability : Non concealable Magazine : 16 Rate of fire : 1	Cartridge : 30 mm uranium rocket (6D10+12 AP, dégâts divisés par trois à moins de 160m) Reliability : standard Range : 800 meters Cost : 4760 eb Description : Datafortress 2020 Length : 115 cm Country : China

Not as accurate or as reliable as its western counterpart, the Militech AM-3, but it is less expensive and holds more ammunition.
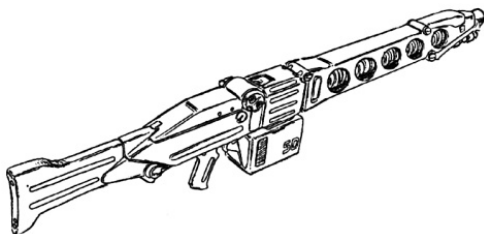

M2019 Blaster

Type : Combined gun Accuracy : +1 Availability : On order Concealability : Jacket Magazine : 5 Rate of fire : 2	Cartridge : .44M (4D6) Reliability : standard Range : 50 meters Cost : 7500 eb Description : Cyberpunk 2021 Length : 24 cm Country : USA

This work of art is the result of the combination of a Steyr-Mannlicher Model SL .222 rifle and a Charter Arms Bulldog revolver. Both guns have been rechambered with very similar ammunition, .44 Magnum instead of .44 Special and 5.56 mm instead of .222, for convenience, as these old calibers are not available. The handling of the bolt action rifle part is not easy and it is advised to use it only as a last resort.
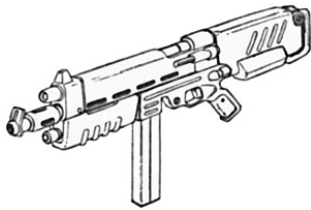

Meta Armson Photon-2

Type : Laser rifle Accuracy : +1 Availability : Rare Concealability : Non concealable Magazine : 20 à puissance moyenne Rate of fire : 2/10	Cartridge : battery (*) Reliability : standard Range : 500 meters Cost : 131185 eb Description : Datafortress 2020 Length : 135 cm Country : USA

Damages : 1D10-10D10 AP. A fairly new weapon, and still in the experimental stages is the Photon-2 heavy laser rifle from Meta Armson. This is one of the largest laser weapon to be seen dirt side currently in production. Since the weapon is produced by a neutral arms company it is probable that this weapon might be seen serving both sides of a battle.
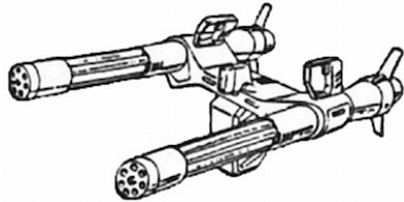

Militech MG-5

|	
Type : Heavy machinegun Accuracy : +2 Availability : Rare Concealability : Non concealable Magazine : 100 Rate of fire : 2/50	Cartridge : 10 mm MG (8D6) Reliability : very reliable Range : 600 meters Cost : 5450 eb Description : Datafortress 2020 Length : 127 cm Country : USA

Militech PASAW-506

Type : Heavy machinegun Accuracy : 0 Availability : Rare Concealability : Non concealable Magazine : 100 Rate of fire : 2/25	Cartridge : .50 BMG (6D10) Reliability : very reliable Range : 600 meters Cost : 7265 eb Description : Datafortress 2020 Length : 96 cm Country : USA

This heavy assault machinegun was designed to fill a support role for ACPA squads and can alternatively be belt fed from an ammo hopper.

Militech PASMG-39

Type : Very heavy submachine gun Accuracy : 0 Availability : Rare Concealability : Non concealable Magazine : 20 Rate of fire : 2/20	Cartridge : 14 mm (6D6) Reliability : standard Range : 250 meters Cost : 2575 eb Description : Datafortress 2020 Length : 62 cm Country : USA

Utilizing the famous 14 mm round developed by Malorian to its utmost potential, this is the light weapon of choice among most US military PA troopers and full conversions.

Militech TS-10

Type : Gatling machinegun Accuracy : 0 Availability : Rare Concealability : Non concealable Magazine : 4000 Rate of fire : 200	Cartridge : 10 mm MG (8D6) Reliability : very reliable Range : 600 meters Cost : 23890 eb Description : Datafortress 2020 Length : 95 cm Country : USA

This weapon, which is generally carried by perimeter defense and guard units, must be dual fed from a large ammo hopper containing 4000 rounds of ammunition which requires at least a strength of 40 to haul. It is possible for a chassis of a strength of at least 20 to fire the weapon, but without the mobile hopper strapped to his back it would be a stationary weapon. Once the ammo is expended, the weapon and the hopper are meant to be dropped. However due to the high cost of both weapon and hopper, disposal on a battlefield is not conducive, and therefore the weapon has limited versatility.
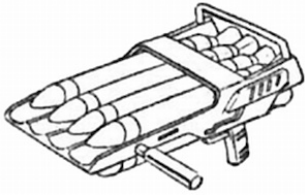

Raven Microcybernetics Gordon-12

Type : Laser rifle Accuracy : +2 Availability : Rare Concealability : Non concealable Magazine : 20 à puissance moyenne Rate of fire : 2/10	Cartridge : battery (*) Reliability : very reliable Range : 600 meters Cost : 134860 eb Description : Datafortress 2020 Length : 132 cm Country : USA

Damages : 1D10-10D10 AP. Raven's version of the Photon-2, a slightly better version supplied exclusively to EDF forces.
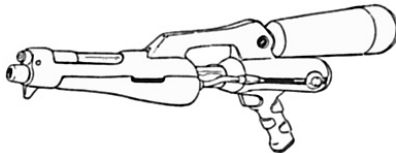

Rostovic PARR-12

Type : Light flame thrower Accuracy : 0 Availability : Poor Concealability : Long coat Magazine : 10 Rate of fire : 1	Cartridge : inflammable liquid (3D6 / round) Reliability : standard Range : 10 meters Cost : 1420 eb Description : Datafortress 2020 Length : 58 cm Country : Russia

Royal Enfield BSG-32

Type : Light grenade launcher Accuracy : -1 Availability : Rare Concealability : Non concealable Magazine : 15 Rate of fire : 2/10	Cartridge : 25 mm grenade (dépend de la grenade utilisée) Reliability : standard Range : 200 meters Cost : 2590 eb Description : Datafortress 2020 Length : 74 cm Country : United Kingdom

A commonly seen ACPA SMG style 25 mm grenade launcher used by the EEC and allied forces, the handle is a bit too large for most full conversions, and is really meant strictly for ACPA. A light weapon most commonly issued in anti-personnel roles.
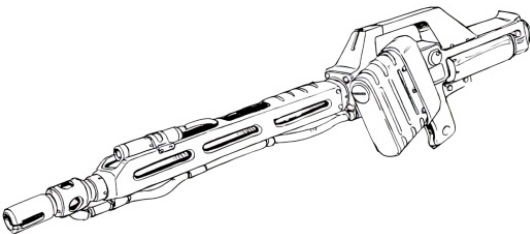

Royal Enfield Ordnance Orberus

Type : Missile launcher Accuracy : +2 Availability : Rare Concealability : Non concealable Magazine : 4 Rate of fire : 1/4	Cartridge : 70 mm homing missile (12D10 AP, 5D6 dans un rayon de 3m) Reliability : standard Range : 3000 meters Cost : 7560 eb Description : Datafortress 2020 Length : 71 cm Country : United Kingdom

Useable only by the heaviest borgs and ACPA the REO Orberus is a four shot reloadable anti-armor missile launcher capable of taking out other ACPA and light armored vehicles quickly and messily.
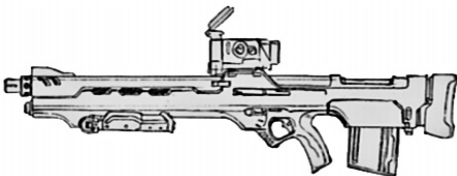

Royal Enfield Ordnance XTS-12

Type : Rocket launcher Accuracy : 0 Availability : Rare Concealability : Non concealable Magazine : 4 Rate of fire : 1	Cartridge : long-range rocket (6D10 AP) Reliability : very reliable Range : 1000 meters Cost : 6220 eb Description : Datafortress 2020 Length : 78 cm Country : United Kingdom

The XTS is the EDF ACPA/borg portable rocket delivery system.
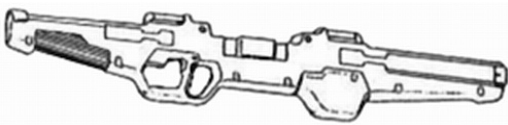

Russian Arms Karminoff Railgun

Type : Railgun Accuracy : +2 Availability : Rare Concealability : Non concealable Magazine : 40 Rate of fire : 1	Cartridge : hardened slug (5D10+10 AP (armure divisée par 4)) Reliability : standard Range : 1500 meters Cost : 26390 eb Description : Datafortress 2020 Length : 156 cm Country : Russia

Russias own advanced kinetic weapons project led to this. Interesting to not, when carried on the ACPA back, the Karminoff is often mistaken for the wings of a flight unit, a deadly mistake. The weapon features a removable ammo/power pack that requires 3 rounds to change.
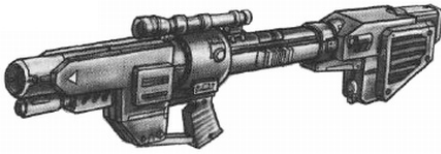

Russian Arms MG-442

Type : Heavy machinegun Accuracy : +1 Availability : Rare Concealability : Non concealable Magazine : 30 Rate of fire : 2/30	Cartridge : 30 mm (9D10 AP) Reliability : very reliable Range : 800 meters Cost : 6700 eb Description : Datafortress 2020 Length : 182 cm Country : Russia

A huge 30 mm MG used mainly by Russia, although it has been sold in great numbers to EEC and Chinese forces.
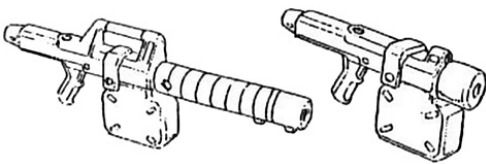

Seburo AA-30

Type : Very heavy semi-automatic rifle Accuracy : +2 Availability : Rare Concealability : Non concealable Magazine : 10 Rate of fire : 2	Cartridge : 30 mm ETE (10D10+5) Reliability : very reliable Range : 600 meters Cost : 21025 eb Description : Datafortress 2020 Length : 128 cm Country : Japan

Requiring a body rating of at least 22 to fire, the Armor Assassin is a full conversion/ACPA rifle of enormous power. It can take out even the largest combat ACPA and is combat effective even against tanks.

Seburo PMN-68	
Type : Assault rifle Accuracy : +2 Availability : Poor Concealability : Non concealable Magazine : 30 Rate of fire : 2/3/30	Cartridge : 7.62C (6D6+2) Reliability : very reliable Range : 400 meters Cost : 2050 eb Description : Datafortress 2020 Length : 68 cm, crosse repliée Country : Japan

Tsunami Arms HR-280	
Type : Rocket launcher Accuracy : +1 Availability : Rare Concealability : Non concealable Magazine : 1 Rate of fire : 1	Cartridge : 105 mm rocket (11D10 AP, 4D6 dans un rayon de 3m) Reliability : very reliable Range : 400 meters Cost : 4500 eb Description : Datafortress 2020 Length : 121 cm Country : Japan
Although it fires the same ammunition as the Hughes HLAW, the HR-280 doesn't really play in the same category. In particular, it is equipped with a system to propel the rocket much further than its rival, if there is one.	

Tsunami Arms SS-56	
Type : Light machinegun Accuracy : -1 Availability : Poor Concealability : Non concealable Magazine : 200 Rate of fire : 2/50	Cartridge : 5.56C (5D6) Reliability : standard Range : 400 meters Cost : 3025 eb Description : Datafortress 2020 Length : 92 cm Country : Japan
The Silent Storm is a suppressed 5.56 mm assault rifle. Underpowered against most full conversion cyborgs and ACPA, it is however very effective against flesh targets and operates at barely a whisper. Removing the carrying handle and suppressor of this weapon turns it into an effective sidearm for larger combat ACPA.
